# Lessons Learnt

- ▶ Importance of Interstate and international cooperation in Investigation
- ▶ Need of Close Monitoring of wildlife using latest technologies like GPS, Camera Traps and SMART(Spatial Monitoring and Reporting) Software.
- ▶ Need of Improvement in Patrolling of reserved areas
  - ▶ Checking of entry of people inside the forest mainly in the core area
  - ▶ Making of New Check Posts and Nakas.
- ▶ Regular Monitoring of Potential threats(suspected poachers)
- ▶ Need of Development of Intelligence Network
- ▶ Information sharing at National and International level regarding Wildlife offences with WCCB, CIB Nepal, Interpol etc
- ▶ Need of increased Entry-Point activities to indirectly reduce burden on VTR by reducing infiltration by Villagers.

# Suggestions

- ▶ Regular Interstate and international departmental meetings should be organised for wildlife crime data sharing and sensitisation of the issue.
- ▶ Establishment of Wildlife Crime Detection Cell(Laboratory) in VTR
- ▶ MoU with different scientific institutions like FSL, CCMB, WII, IVRI etc. to fasten the Sample Analysis Report
- ▶ Expert lawyer in Wildlife crimes should be engaged to ensure maximum punishment for the offenders.
- ▶ Regular sensitisation program for Forest officials, SSB and Judicial officer etc.
- ▶ Use of Modern technology Like E-eye, UAV-Drones, CCTV camera, Illegal Trade Database, CDR analysis in wildlife monitoring and Wildlife related crime detection
- ▶ Fulfilment of pressing demand of Permanent Frontline staff in Tiger Reserve.
- ▶ Staff should be equipped with weapon
- ▶ Use of Speed Boats in Gandak to patrol international porous border with Nepal.
- ▶ Use of Elephants in Tiger patrolling to access difficult areas.

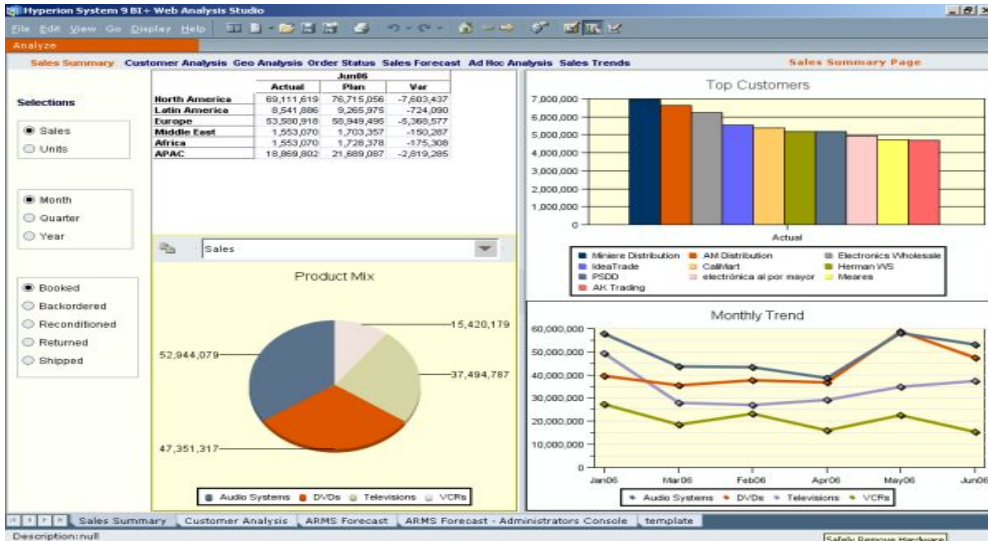

## Continued..

- ▶ State Government has been requested to fill up the existing vacancies of field staff. The situation is precarious as of now with 90% vacancy at FG and Forester level.
